the 1990s, the number of people in the world who are under 15 years of age has increased by 1.2 billion, from 1.1 billion in 1980 to 2.3 billion in 1999 (United Nations 2000).

There is a growing awareness of the need to address the needs of children in the 21st century. The United Nations Convention on the Rights of the Child (1989) has been signed by 112 countries, and the United Nations Millennium Declaration (2000) has set out a commitment to 'ensure that all children, everywhere, have access to primary education by the year 2015'. The United Nations Secretary-General Kofi Annan (1999) has called for 'a new global compact for children'.

There is a growing awareness of the need to address the needs of children in the 21st century. The United Nations Secretary-General Kofi Annan (1999) has called for 'a new global compact for children'.

There is a growing awareness of the need to address the needs of children in the 21st century. The United Nations Convention on the Rights of the Child (1989) has been signed by 112 countries, and the United Nations Millennium Declaration (2000) has set out a commitment to 'ensure that all children, everywhere, have access to primary education by the year 2015'. The United Nations Secretary-General Kofi Annan (1999) has called for 'a new global compact for children'.

the 1990s, the number of people in the world who are undernourished has increased from 250 million to 800 million (FAO 1996). The number of people who are malnourished has increased from 1.1 billion to 1.6 billion (FAO 1996).

There is a growing awareness of the need to improve the nutritional status of the world's population. The United Nations World Food Programme (WFP) has been instrumental in this regard, and has been successful in increasing the number of people who are receiving food aid from 10 million in 1980 to 100 million in 1995 (WFP 1996). The WFP has also been successful in increasing the number of people who are receiving food aid from 10 million in 1980 to 100 million in 1995 (WFP 1996).

The WFP has been successful in increasing the number of people who are receiving food aid from 10 million in 1980 to 100 million in 1995 (WFP 1996). The WFP has also been successful in increasing the number of people who are receiving food aid from 10 million in 1980 to 100 million in 1995 (WFP 1996). The WFP has also been successful in increasing the number of people who are receiving food aid from 10 million in 1980 to 100 million in 1995 (WFP 1996).

The WFP has been successful in increasing the number of people who are receiving food aid from 10 million in 1980 to 100 million in 1995 (WFP 1996). The WFP has also been successful in increasing the number of people who are receiving food aid from 10 million in 1980 to 100 million in 1995 (WFP 1996). The WFP has also been successful in increasing the number of people who are receiving food aid from 10 million in 1980 to 100 million in 1995 (WFP 1996).
